

# Residential Green Package

## PROTECTION AND PRODUCTIVITY

Intelligent power conditioning stops the continuous spikes and surges, filters noise, and reconditions harmonic energy to improve the performance of the major electrical devices in your home or business while reducing your energy cost. Dependability and longer life enhance personal productivity and have increased manufacturing quality and customer acceptance.

## ENERGY SAVINGS

Electronics and motors distort energy forms causing an increase in the use of power to do the same amount of work than clean power would. By boosting selected electric properties and conditioning waste electric frequencies, the enhanced efficiency reduces demand while provided full specified power available to business and home equipment.

We are helping to save the environment one house or business at a time.  
Our Guarantee is simple: We will save you at least 10% in kWh, or your money back after a 180 day period.

## (2) Efergy's range of Wireless Electricity Monitors

This will allow you to instantly see how much energy you are using, so you can take action to reduce it. Our monitors give you feedback on your energy usage in real time – as regularly as every 6 seconds – so you can make instant changes and instant savings. By turning appliances and unplugging things you will see your savings in real time.

## LED Lighting

In residential if they don't have LED already we come in and change out all the lighting. We will have some new lighting products coming soon. Lighting is so important in energy savings as they are some of the cheapest energy consuming products in our homes, but are one of the most used in are homes. Reports have shown that the average American spends (\$12.38) per light annually that can add up if you multiply ten that's over a hundred dollars a year just in lighting. We can cut that down to (\$2.40) a year per light bulb. You do the math.

Here at "G.I.T.S" we will save you money and protect your equipment with our system installed in your home or 180 day money back guaranteed it that simple. But most important is helping our planet let's do this for our planet.
